

Legend

HOT WATER
FURNACE

...the furnace is attractive and built on two skids.

...unit has convenient water line hookup.

...easy access to unit through top doors.

The **Legend Stoker/Furnace** unit is very efficient in burning coal or various other forms of fuel. This unit has a cast iron burning grate, a rotating cast ring and a dual air flow system for an even burn. This unit also features a double shaft motor with a direct drive to fan and adjustable speed to stoker drive. The one-lever flue cleaning system makes the **Legend Stoker/Furnace** easy and safe to maintain. This unit comes with a full warranty and uses many basic parts that are readily available.
